

## How to Use the 3G/4G Feature

The 3G/4G Feature allows you to access Internet via 3G/4G USB Modem that's connected to the router.

### HOW TO SET UP:

1. Put the SIM card into the 3G/4G USB Modem.
2. Plug the 3G/4G USB Modem into the USB port of the TP-LINK router. The USB LED will turn green.
3. Log in the management interface. Go to USB Settings—3G/4G.

4. When it shows 3G/4G USB Modem: Identify successful and Connected. It means the router is now connected to 3G/4G Network. We can enjoy the Internet now!

### 3G/4G

---

**3G/4G USB Modem:** Identify successfully

**Location:**

**Mobile ISP:**

**Connection Mode:**  Connect on Demand  
 Connect Automatically  
 Connect Manually
